

State Advisory Panels (SAP) State Interagency Coordinating Councils (SICC) Quarterly Webinar

Thursday, May 2nd, 3:00 PM Eastern

Improve your skills as a SAP/SICC member.

Connect to existing resources.

Learn what others care about and make your needs known.

Learning Together in HI: Increasing Active Engagement Through the State Education Advisory Council (SEAC)

In 2018, the Hawaii SEAC began developing infographics with a dual purpose: to engage the committee as a whole to build shared understanding on topics of importance and to use the SEAC networks to share information broadly with parents and the educational community. An infographic is a collection of imagery, charts, and minimal text that gives an easy-to-understand overview of a topic. Infographics use striking, engaging visuals to communicate information quickly and clearly. In this webinar, SEAC members will describe how the SEAC assigned tasks, created a vetting system and produced products to be promoted by the SEA and the SEAC members. The HI team will describe the development of learning packages with an infographic and a dialogue guide to support use of the material in the field.

Lastly, they will describe how the experience of co-creation offered a way to share talents and knowledge while building teamwork that will continue and deepen.
