### Webinar Topic:

**Connecting across SAP and SICCs in 2017-18  
Website and webinars as tools to connect**

For several years, a workgroup of OSEP project officers and federal project leaders have joined with SAPs and SICCs to build a learning network. We have primarily communicated through webinars featuring state efforts and a website that shares state tools and initiatives.

As we plan for our future work and the move to a new and improved website, the SAP/SICC Workgroup is convening a dialogue with SAP/SICC members to share our efforts and to learn what we can do to support you in your state. Please join us and encourage your members to participate. Our work is designed to enhance your work. We want to hear from you!
